## Vocational Education

» Listen

The Vocational Education section of the institute deals with all issues relevant to vocational education in all teaching environments, research as well as in teaching.

These include:

- » [Theory and practice of vocational training](#)
- » [The foundations of educational science](#)
- » [The vocational transition system and vocational training](#)
- » [Advanced educational training](#)
- » [Vocational training research](#)

These areas are examined in their historical and international context.
