Lecture room technology

🔊 Listen

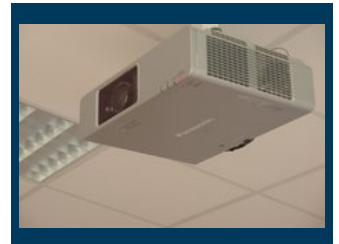

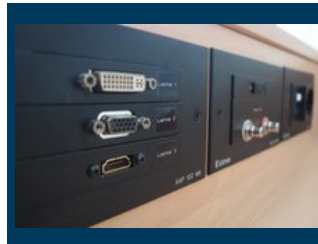

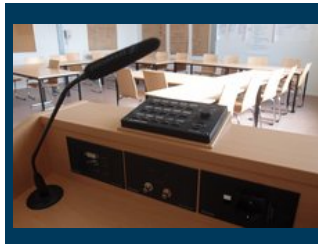

Current Information

All users are requested to bring their own connection cables for connecting their individual notebooks/tablets to the lecture-room beamer and any loudspeakers they may need.

The [ZIMT-Servicedesk](#) is available for the "emergency loan" of cables (for an event).

Employees can order cables and adapters for business purposes via IT procurement.

The function rooms for lectures, seminars and other events are equipped with video projectors, DVD/Blu-ray players and many have [interactive white boards \(Active Boards\)](#). This overview will assist you in selecting a lecture theatre that is suitably equipped for your needs.
