Login details

🔊 Listen

As soon as you use an IT service of the EUF, you are subject to the provisions of the [user regulations \(statutes\)](#). Among other things, this means that you may not pass on your network access data to third parties. This also includes apps and other software: **Never enter your access data into (smartphone) apps or software** unless they have been officially approved or published by the European University of Flensburg. Otherwise your data could fall into the wrong hands and be misused.

What are they used for?

All students at Europa-Universität Flensburg will receive an individual user account, which allows access to the different IT-services of the university, such as:

- › to the university's WLAN (via your notebook, tablet or mobile phone)
- › to e-mail over the Internet via webmail (Roundcube)
- › to e-mail on the mobile device

and to some other IT-services.

With his/her registration document each student receives an information sheet with the login details and the student's university e-mail address.
