### WiFi for students (eduroam)

🔊 Listen

On this page you will learn how to log in to the Wifi campus.

### WiFi "Eduroam"

If you regularly need your smartphone, tablet or notebook on campus, you should set up the Wifi "eduroam". This is a little more time-consuming, but in the long run it makes it easier for you to connect to the Internet.

Once set up, you will be "online" again the next time you visit the campus. In addition, you can also use eduroam in other affiliated universities to access the Internet immediately.

### Old WiFi / Replacement WiFi

If you just want to quickly access the Internet or if something does not work with your eduroam access, you can also use our alternative WiFi.
