General User Regulations (statutes) for the Communication and Data Processing Infrastructure of Europa-Universität Flensburg

Listen

The purpose of these **user regulations** is to ensure that the communication and data processing infrastructure of Europa-Universität Flensburg (EUF) is as accessible, error- and interruption-free and secure as possible for those who use it. These regulations are based on the university's legally defined duties and responsibilities, and on its mandate to preserve academic freedom. They set basic rules for the proper use of the university's information processing infrastructure, and the user relationship between entitled persons (users) and Europa-Universität Flensburg.

The communication and data processing infrastructure of the Europa-Universität Flensburg is operated by the **ZIMT**.
