The B.A. European Cultures and Society (EUCS) is an interdisciplinary study program focusing on the cultural and social sciences of Europe.

Empirical research methods, as well as hermeneutical methods of critical thinking, enable students to work in interdisciplinary settings.

One of the particular features throughout this program is its project-based application of scientific knowledge in the fields of research, journalism, art and scenography, or entrepreneurship. This prepares students for dealing with the practical challenges of their future careers.

As an international B.A., with all classes taught in English, the program requires the completion of one [semester abroad](#).

Duration: six semesters (180 CP)

Degree: Bachelor of Arts
