48	25	26	27	28	29	30

Details

In this time slot we will introduce you to Studiport and will explain how to work with it.

Studiport is the software product that the Europa-Universität Flensburg adopted for the registration of students both in the courses and in the exams. It is essential to be able to manage this software in order to study in Flensburg. The lack of correct registration in the courses and / or in the respective exams doesn't allow you to get the credits you need to complete the modules and advance in your studies.

After the introduction to Studiport we will have a short introduction of some associations and organizations, which cooperate with the University. If you are interested in their activities you can talk to them directly.

Time: 11.00 - 13.00

Place: tba
