**Internships abroad**

» Listen

Practical experience abroad is gaining ever more importance in many professional fields. It is considered a bonus to have intercultural sensitivity, knowledge about various countries and foreign language skills which promote chances of entering the job market and furthering professional prospects. Practical experience abroad can be gained through specialized internships or short-term work experience.

First information on internships and entry into professional life is offered by the service [unit CampusCareer](#).

The German Academic Exchange Service (DAAD) provides a [list](#) of search machines for internships.

Internship in Europe can be accessed through this [platform for traineeships](#).
