Description

The Danish A1 course is suitable for participants without previous knowledge. It is primarily concerned with the teaching of basic knowledge of the Danish language.

Basic knowledge of Danish grammar and vocabulary is taught by means of everyday conversation topics and situations (greetings and introductions, nationality and language, food and drink, travel, addresses and numbers). When working on vocabulary, we mainly deal with the following topics: Presentation and introduction of persons (name, nationality, profession or course of study, place of origin, family), hobbies and interests. The grammar focuses on personal pronouns, possessive pronouns, question particles, question words and nominal sentences.

The language course is designed in such a way that the participants complete level A1 in two weeks. In the following semester the course Danish A2.1 can be taken.
