Academic research at Europa-Universität Flensburg

Listen

Academic research at the Europa-Universität Flensburg focuses on education, economics, and environmental sciences, with an emphasis on interdisciplinary studies, sustainable development and interdisciplinary European studies. Apart from the specific research activities of individual researchers, academic research at the Europa-Universität Flensburg, in contrast to other universities, interlinks with other projects, both within the same department and in cooperation with other departments, crossing into other areas of research within and above departmental level. This networking and focus on research is actively supported by research-oriented competence centres.
