Relevance:  84%

This is how space allocation **works!** - The allocation algorithm briefly explained. Listen Note: for students with special life circumstances, special rules apply, which are explained below. Places are allocated automatically on the basis of the priorities entered. As an example, the allocation of courses in a sub-module will be considered here: In the automated allocation, all offered courses are collected and run through the following steps one after the other. A course is selected and all students who have entered this course
