

Continuing Education and Further Ttraining

 Listen

EULE ([the Institute for Lesson Development, Learning Culture and Evaluation](#)) offers trainee teachers and teachers a comprehensive advanced training and continuing education program. As the joint institution of IQSH and Europa-Universität Flensburg, EULE links the stages of teacher training, in order to develop tailor-made formats for the support of teachers, or teams, from schools. By coordinating and cooperating with other educational institutions in the region, educational development processes can be supported.

In cooperation with [the Centre for Academic Continuing Education \(ZWW\)](#) of Europa-Universität Flensburg, the ZfL is also developing continuing education courses and academic didactic training programs.

In addition, the EULE library provides specialized literature, school textbooks and teaching materials, which can be borrowed by students and teachers.
