► Introduction

Studying and attending lectures as a guest at Europa-Universität Flensburg

🔊 Listen

Within the framework of an open offer for academic continuing education ZWW offers adults the opportunity to study at Europa-Universität Flensburg as guest students. With a view to the diverse processes of modernisation and 'scientification' in our society, guest studies help to deal with humanistic, social-scientific and economic issues actively and independently. An academic degree cannot be achieved on this programme, but in the spirit of academic continuing education it is possible to obtain a certificate of successful participation in the [guest programme](#).
