

Introduction Workshop 2025

Venue: Campus Building Helsinki (HEL 163)

Date: 10–12 September 2025

Dear SEDev 2025-2027 Batch,

We are delighted to welcome you to Flensburg and to the Sustainable Energy and Development (SEDev) Master's Programme! To start your journey with us, we have designed a 3-day Introduction Workshop to help you settle in, connect with your peers & lecturers, and gain an overview of the programme.

Objectives of the Workshop

- **Ice-Breaking & Networking:** Get to know each other through cultural presentations, shared lunches, and a fun “Shopping, Chopping, Cooking” common dinner.
- **Course Orientation:** Learn about the structure, goals, and opportunities of the SEDev programme.
- **Expectations & Contributions:** Share your expectations of the programme and explore how your own strengths, such as soft skills, professional experience, and research ideas, can enrich the group.
- **Teamwork & Engagement:** Participate in interactive activities that encourage collaboration and build trust.
- **Facilitation & Moderation Skills:** Gain a practical overview of techniques that will support your academic and professional journey.
- **Student Representation:** Select a Class Speaker and a DAAD Speaker (from among DAAD scholarship holders).

This workshop is the first step toward building a supportive and collaborative learning environment. Your active participation will make it a success!

We look forward to seeing you all in HEL 163 on 10 September at 8:30. Please refer to the detailed plan (see the next page) to familiarise yourselves.

Warm regards,
SEDev Team
