WRITING-WEEK

12.2. – 16.2.24, Riga 5: 514

Programm

Writing workshop for EUF PhD students with Dr Tobias Zervosen in cooperation with the ZWW

Dr. Tobias Zervosen will be holding the workshop "Getting into writing and writing rough versions" (held in German) on 13.2. (9 a.m. - 1 p.m.), which is individually tailored to the EUF DokNet. Reflections on one's own writing process, the presentation and testing of writing methods (freewriting, process writing etc.) and dealing with writer's block will be the topics.

If required, we can delve deeper into the topic of "From process writing to product writing" after a lunch break, focusing on the reader's perspective as a starting point for text revision.
