# **BORDERS & CONTACT ZONES**

**5 - 7 Dec 2023 at KUNST&CO e.V.**

“Where could we go? Is a question we do not give much needed thought to. To answer this question, we first need to consider where we are. The answer is more than just a definition of our bodies in the fourth dimension; our state of mind or current knowledge about our surroundings, but also the restrictions placed on us by figures of authority and the outside world in general regarding where we can/cannot go.”

The students of the B.A. European Cultures and Society seminar “Instruction-based Project: Art and Scenography” under the direction of Svea Taubert present the exhibition “BORDERS & CONTACT ZONES”. Via visual means the group engages with the concept of borders at the contemporary art association KUNST&CO e.V. in Flensburg. The idea of borders as contact zones is translated into space and displayed as an installation, while photography work questions interrelations of bodies and borders, sheds a different light on migration and negotiates borders as sites of conflict. The exhibition project confronts you with ever-present boundaries, dividing lines and zones - from 5 to 7 Dec 2023 it asks you to rethink our perceptual borders we unconsciously engage with daily.

**Opening times:** Tue, Wed, Thu: 16-19 h

**Finissage:** Thu, 7 Dec 2023, 18 h
