| Modul 44b | ECTS | frequency | Hours per week | Total workload | Attendance time | Self-study | length |
| 153003370 | 5 | Depends on the offer | 2 SWS | 150 h | 30 h | 120 h | 1 Semester |
| Module titel | Topics in Area Studies (Southern Europe) | | | | | | |
| Qualification and Competence objectives: | The module allows students to deepen or expand their region-related knowledge and skills. One priority is to analyse the relationship between the activities of individual regions and the European multi-level system. This enables students to prepare themselves specifically for tasks related to the region due to the detailed study of individual sub-aspects in the selected specialisation region (for example in the field of human resources, marketing, tourism or logistics) or the in-depth study of a country in the context of the European multi-level system. If they decide to expand their regional knowledge, the breadth of their usability on the labour market increases. | | | | | | |
| Description of content: | Alternates depending on the special topic | | | | | | |
| Study section: | irregular | | | | | | |
| Applicability: | This module can be used in other EUF degree programmes | | | | | | |
| Modulverantwortliche | Prof. Dr. Ulrich Glassmann | | | | | | |
| Admission requirements | none | | | | | | |
