

**“Green Travel”** in the Erasmus+ program is defined as travel in which low-emission means of transport such as bus, train, bicycle or carpooling are used for the major part (at least 50%) of the trip.

**Additional travel days** can be funded if more travel days are necessary due to the use of environmentally friendly means of transport than, for example, in the case of travel by air (i.e. the journey to the destination takes place at least 1 day earlier and the arrival at the place of residence at least 1 day later than in the case of a flight).

**Please only upload this declaration to the online portal if "Green Travel" applies to your trip.**

### **Declaration of Honor for “Green Travel” in the Erasmus+ Program**

I, \_\_\_\_\_, hereby confirm that I am eligible for the following top-up(s) for my Erasmus+ stay in \_\_\_\_\_ (place, country), which will take place \_\_\_\_\_ (mobility period without travel days):

- travel allowance top-up for “Green Travel”
- 1 additional travel day
- 2 additional travel days
- 3 additional travel days
- 4 additional travel days

I have been informed about the conditions and criteria of the Top-Ups and I am aware that I have to submit proofs about the means of transport used in case of random checks by the International Center of Europa-Universität Flensburg (if applicable, the original copy). I commit myself to keep the corresponding proofs for 5 years.
