

Your journey to graduation at the University of Flensburg

European Cultures and Society (EUCS)

Bachelor of Arts (B.A.)

The 1st and the 2nd semesters prepare you to study at university level.

The main idea is to introduce everyone the basics of this program. This will allow you to choose where you want to set your focus in higher semesters – European Cultures or Society.

There is also an introduction to how to think in academic terms - how to ask questions and how to build logical answers.

From the 3rd semester onward, you get to choose your focus: either European Cultures or Society, but not in an excluding way. Then you will go deeper into the topics and will start getting an idea of the details. Alongside the topics you choose, you will learn through hands-on projects, so you get to use what you study in real-life situations. You can pick projects in the areas that excite you the most: visual art, university research, journalism, or business. Classes will be more interactive, as you get to discuss different topics in class to come to common conclusions.

The 6th and last semester is dedicated to writing your thesis. You will meet weekly with other students and a lecturer to support you along the way. You will also have your last discussions in class about current topics.

The semester abroad is on the 4th or the 5th semester. You have almost 90 partner universities on offer. If that is not enough, you are free to decide to go anywhere else. This is an amazing chance to explore the world.

Why the degree program is fun and enriching

First, you get the chance **to study in English and prepare for a global job market**. This is always a plus.

Second, you get **to study with international students from all over the world**. This makes it easy to practice English, to experience different cultures and make friends from all over the world. This will strengthen your **intercultural competences – a central career skill**.

Third, you get to focus on the topics that **you most like and you find fun**. Art, business, history, politics, culture... The possibilities are all there.

The cherry on top is the **semester abroad**. All our students talk about the semester abroad as **a life changing experience**. All without stress and financed by the European Union (Erasmus+). Your passport to **understanding Europe while building future skills**.

And the **friendships** that you make here are **for life**.

This is special

- ➔ 100% in English and semester abroad
- ➔ International environment
- ➔ Individual student support
- ➔ Choice of different courses
- ➔ Learn to solve problems
- ➔ Career events

Exciting career prospects

EUCS graduates work in **exciting jobs all over the world**, making a real impact in many different areas. Some work as researchers, studying how societies and economies change to help companies, governments, or organizations make better decisions.

Others work as content creators, sharing important messages online, attending international events, building partnerships, or developing projects with a diverse group of people.

Some EUCS graduates focus on big issues like the environment, human rights, or social justice. They spread awareness, organize events, or even prepare art exhibitions to bring people together and make a difference.

You can choose what to focus on during your studies, so you can find a career that matches what you are passionate about. The possibilities are endless!

The degree program suits you if...

- ➔ you are interested in what is happening in the world around you
- ➔ you are open minded towards different cultures
- ➔ you like asking questions and finding answers
- ➔ you have not yet found what you want to study – you have found exactly what you like within EUCS

Studying at the EUF and the Flensburg Campus

Here you find **language courses free of charge**, a sports center, a swimming pool and several student organizations (political, environmental, intercultural, religious...).

In the evening there are theme events: cinema and game nights, theater plays, BBQs. **A small campus makes connecting easier.**

You can reach several **beaches**, the **Baltic and the North sea** and **Denmark by bus** and Hamburg by train.
