<p>Students know basic categories and criteria of scholarly inquiry and are able to understand that the complexity of European Cultures and Society involves divergent conceptions and various methods of analysis developed in different disciplines. Four branches of 'Doing Europe' are selected for comparison: Research, Art and Scenography, Journalism, Entrepreneurship. With reference to the instruction-based or autonomous projects undertaken by students in DE 4 and DE 6 these branches are scrutinised to ground further investigation and practice.</p> <p>Students know different disciplinary approaches to cultures and society. They are able to understand and discuss the necessity of interdisciplinary work and have realised the challenge of Doing Europe.</p> <p>Students can distinguish between different critical approaches on the basis of methodological considerations. They also know that knowledge production and distribution take on different forms in the four branches of Doing Europe. Consequently they can decide in which branch they will undertake an instruction-based project in DE 4.</p> <p>Students are willing to accept and to handle theoretical contradictions between disciplines diverting in methodology and terminology. They take complexity as a challenge and reflect on their own interest in Doing Europe.</p>
