

B.A. European Cultures and Society								
Modultitel		Nachhaltigkeit und Politische Ökologie in Europa						
englischer Modultitel		Sustainability and Political Ecology in Europe						
Modul TD S 6 Wahlpflichtmodul 680128000	Leistungs- punkte	Lehrangebot	Workload	davon Präsenz- zeit	davon Selbst- stud.	Dauer	Turnus	Studien- abschnitt
	5	2 hrs/week	150 h	30 h	120 h	1 Sem.	jedes WiSe	3. oder 5. Sem.
<p><i>The module provides a basic understanding of complex interactions between politics, economics, technology and the natural environment, so that students will be able to evaluate current environmental issues as well as policies and strategies to respond to them.</i></p> <p><i>Students will be familiar with societal causes of today's most pressing ecological crises (such as global warming or biodiversity loss) and will know and be able to distinguish various theories of sustainable development as well as environmental policies. Additionally, specific economic, cultural and societal contexts of diverse approaches are taken into account.</i></p> <p><i>Students will obtain and practise various essential academic skills in social sciences, such as reading and presenting academic literature, academic reasoning, argumentation, writing, and citation styles. Students will obtain and practise various essential academic skills in social sciences, such as reading and presenting academic literature, academic reasoning, argumentation, writing, and citation styles.</i></p> <p><i>Students will be able to work in teams and to communicate complex socio-ecological problems and environmental policies verbally and in written form. Additionally, they have the capacity of putting themselves in differing positions. Furthermore, students will be able to autonomously follow and critically reflect on on-going debates in the field of sustainability.</i></p>
