Module 8 Mandatory module 153001080	ECTS	frequency	contact hours	total workload	contact time	self-study	duration
	5	every 2nd semester (spring term)	4 hrs/week	150 h	60 h	90 h	1 Semester
Module title	<b>Macroeconomics</b>						
<p>The aim of the module is to enable students to analyse current economic policy issues with the help of basic macroeconomic theories at a first in-depth level. For this purpose, they must be able to assess the scope of macroeconomic theories and to apply the figures of thought conveyed to current processes.</p> <p>The module conveys the internationally accepted standard curriculum in this field, giving preference to the Neo-Keynesian view. The basic instruments (Keynesian goods market, IS-LM model, AS-AD model) will be systematically developed. It will be applied to current issues. The key role of expectations is also discussed and the basic principles of growth theory are conveyed.</p>
