➤ The oystercatcher is an endangered bird species. In 2014 it became sea bird of the year to show the problems it faces.
Find out why the oystercatcher is an endangered species and how we can help to protect it. Use the internet for your research:

1. Why is the oystercatcher an endangered species?

2. What are the reasons for the worldwide reduction in stock numbers?

3. What can be done to counteract this process?

- If you have any questions concerning words you can write them down here to clarify them later in class.
