

<b>Meadow</b>	<b>What kind of meadows does the green woodpecker like best?</b>
<b>Mixed orchard habitats</b>	<b>What does the green woodpecker find there?</b>
<b>Ants (food) and old trees for their holes (living space)</b>	<b>Where do ants also live?</b>
<b>In the garden</b>	<b>What should you never use if ants are to survive?</b>
<b>Ant killer</b>	<b>What should people only do infrequently so as to protect ants?</b>
<b>Cut the lawn</b>	<b>Sometimes green woodpeckers are not able to reach the ants on the meadow. In which season of the year?</b>
<b>In winter, when it's snowy</b>	<b>What endangers the mixed orchard habitats?</b>
