

CULTURE, PRACTICE & EUROPEANIZATION

Open and Permanent Call for Papers: Culture, Practice & Europeanization

Description: An international, double-blind peer reviewed journal

We kindly invite you to submit papers to Culture, Practice & Europeanization (CPE). CPE is an international, peer reviewed platform for publishing research-based articles predominantly dealing with research into the multiplicity of social processes, interactions, and policies relating to Europeanization and both international and intercultural encounters in Europe. CPE is an interdisciplinary journal with strong roots in sociology. CPE welcomes contributions that seek to enhance understanding of social processes relating to internationalization, internationally relevant practices, and further trans-national activities and processes in Europe. Contributions may also be based on observations in settings outside of the European region that are (e.g. historically, politically, culturally) connected to European practices. Texts may relate, inter alia, to the fields of internationalization of businesses and education, to research into trans-cultural encounters and communication, to migration, to the formation of attitudes towards Europe, or to comparative studies on social inequality and welfare.

Submission

Authors may submit any time. Empirical, theoretical and conceptual texts of significant originality will be considered for publication. CPE welcomes submissions of original research papers, but also invites submission of essays, speeches, conference and research reports, and commentaries. All methodological approaches are welcomed. CPE publishes at least biannually.

Submitted manuscripts must be written in English. For manuscript and submission policy please visit <https://www.uni-flensburg.de/soziologie/publikationen/culture-practice-and-european-policy/>
