

ICES Call for Field Research Proposals

November 2021

Dear colleagues,

The Interdisciplinary Centre for European Studies (ICES) welcomes proposals from all EUF Postdocs and doctoral students as well as from non-EUF members of the ICES Research School working in the field of European Studies and planning to conduct field research or archive/library stays in 2022. By facilitating field research stays, ICES would like to support excellent early stage researchers at EUF.

ICES funds up to 5 research stays with a maximum of 1.200 Euro per stay. Higher funding is possible in justified exceptions.

Please provide a short application (1 page), including a concise description of your research project, the necessity for and details about your intended field research, preliminary timeframe, and a budget plan. Applications can be submitted in German or English.

We look forward to receiving your proposal. Please send it to ices@uni-flensburg.de no later than 05.12.2021. If you have questions, please do not hesitate to contact me.

Mit besten Grüßen

Maria Schwab
