

eduroam für Studierende Konfiguration auf iDevices (iOS)

Step for step installation

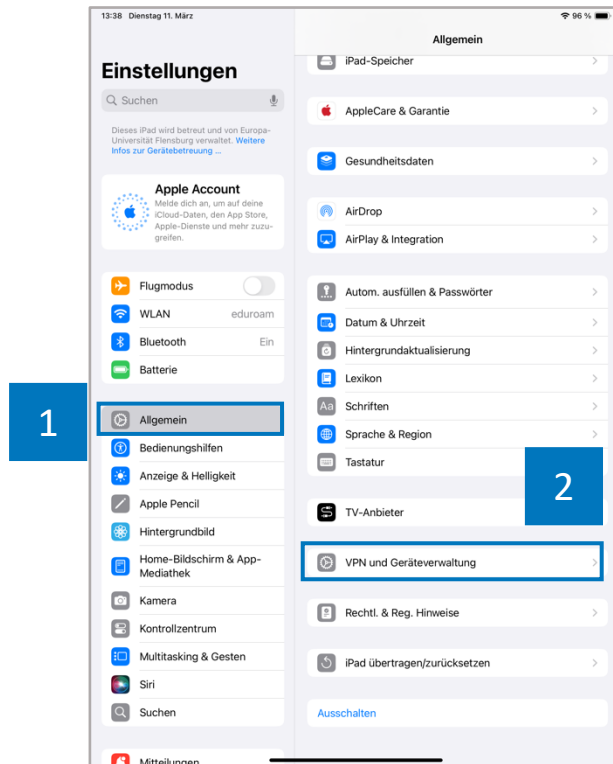

You want to have a permanent internet connection on your iPhone/iPad on campus?
Follow this installation guide to setup your eduroam connection.

What you need to follow this guide:

1. You are holding an iPad/iPhone.
 2. You have a user account at the EUF.
 3. You know your network login information.
 4. You can temporarily connect to separate internet (like cellular).
 5. The first four steps are possible to do at home. For the fifth step, you need to be on campus.
-

Step 1: Before setup of eduroam Wi-Fi

To set up eduroam, you will need to connect to a different internet connection, like your cellular or the network "Uni-Studenten".

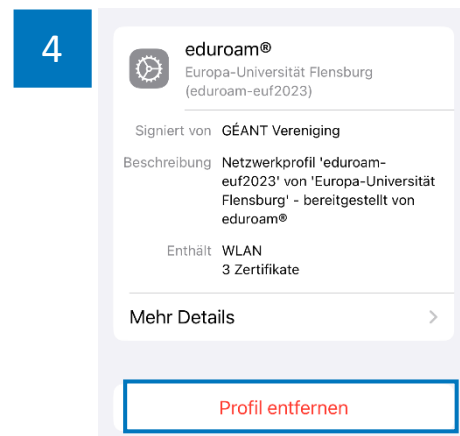

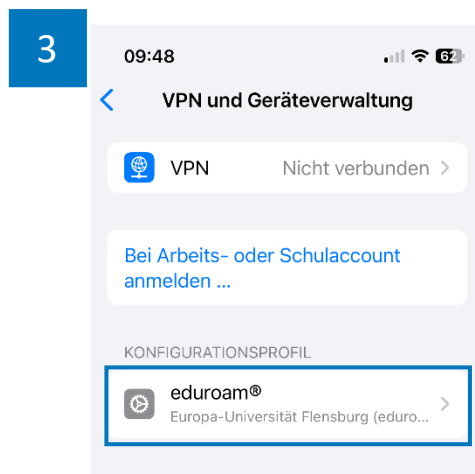

1.1 Open the general settings.
Settings > („Allgemein“)

1.2 Navigate to VPN & Device
Management („VPN und
Geräteverwaltung“)
**Settings > General > VPN & Device
Management**

1.3 If there is a **configuration profile**
for eduroam, press it. If there is not,
continue with step two.

1.4 Press Delete Profile („Profil
entfernen“)

All eduroam profiles are now deleted.

Step 2: Download installer

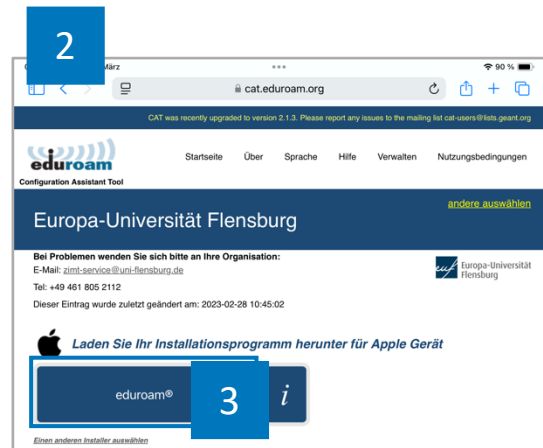

2.1 Open the browser **Safari** (do not open Firefox, Chrome or similar).

2.2 Enter the following URL or press this link: <https://unifl.de/eduroam>

You will see this internet site:

Your device will be automatically recognised as an **Apple device**. If it is not, please change it to Apple.

2.3 Press on the button eduroam and download the profile.

2.4 Wait a moment, until this popup appears:

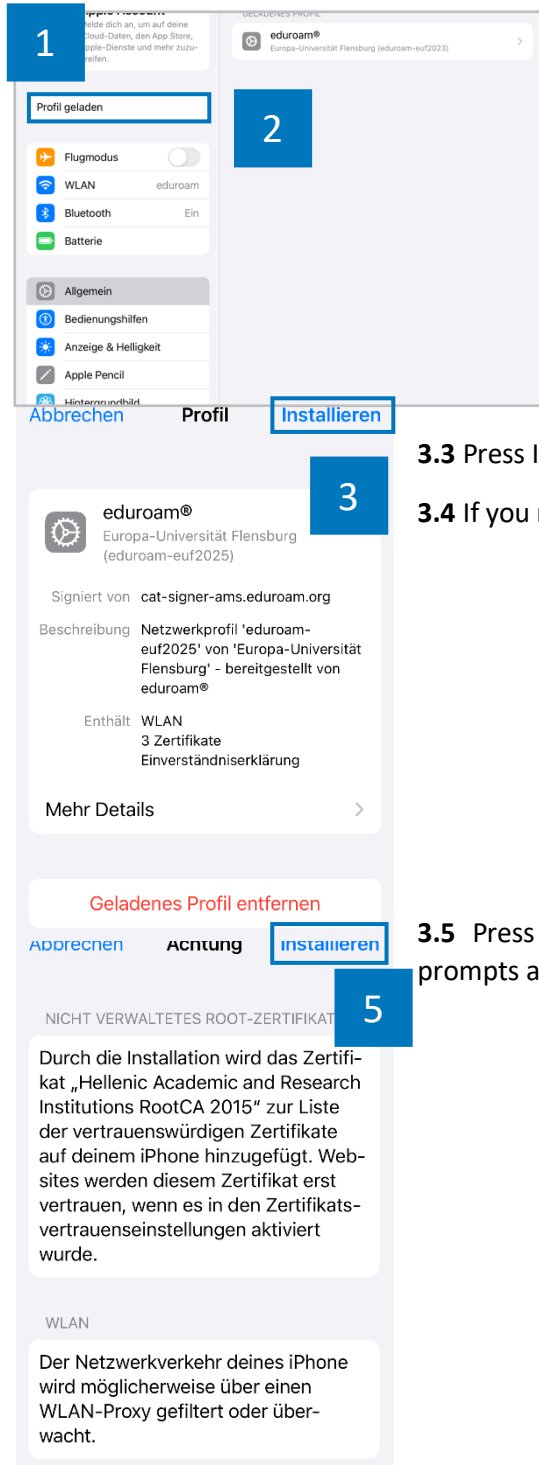

2.5 Press Allow/Accept („Zulassen“)

„cat.eduroam.org“ versucht, ein
Konfigurationsprofil zu laden.
Möchtest du das erlauben?

Ignorieren **Zulassen**

5

Step 3: Install profile

3.1 Open **settings**

3.2 Press the button **Loaded Profile** ("Profil geladen") and open the profile.

3.3 Press Install („Instalieren“).

3.4 If you need to, insert your pin / authentication

3.5 Press **Install** („Installieren“) in the following prompts as well.

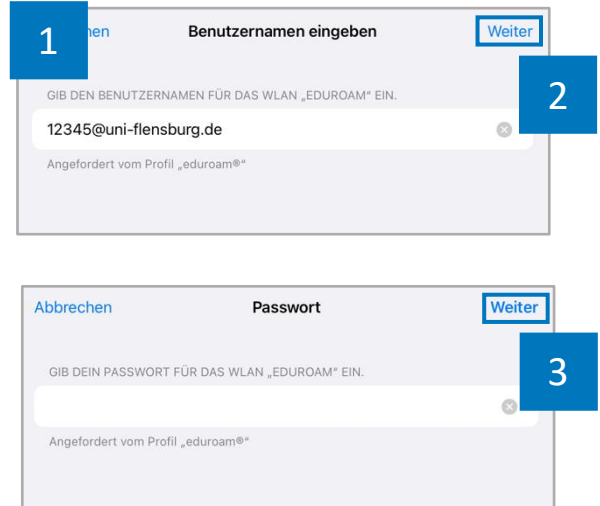

Step 4: Type in the login information

4.1 The username is put together with your **student id** and **@uni-flensburg.de**.

IMPORTANT: Do not type in your email address.

4.2 Press **Next**.

4.3 Type in your network login password. Press **Next**.

Step 5: Connect with eduroam Wi-Fi

You are on campus. Eduroam Wi-Fi is offered here.

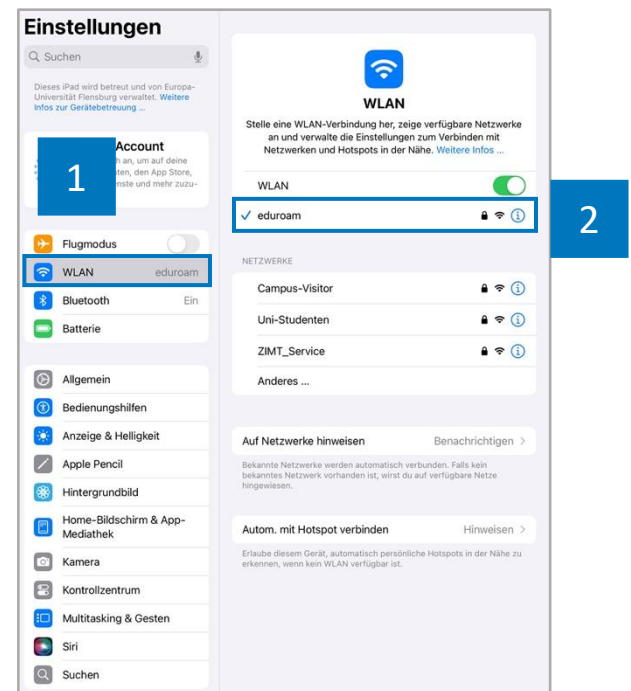

5.1 Navigate to your general settings and select **Wi-Fi (WLAN)**: **Home Button** > **Settings** > **Wi-Fi**

eduroam is now one of the available networks.

5.2 Press on the network.

Your device now connects automatically.

5.3 Test your connection to the internet.

Step 6: Troubleshooting

Have you followed all steps of this guide?

6.1 Follow the steps of the eduroam troubleshooting: <https://www.uni-flensburg.de?59101#c204144>

6.5 If there is no connection still, contact WLANAdmin@uni-flensburg.de.

Please send your **student id, building name, room number, time and date** of not being able to connect.
