

eduroam für Studierende Konfiguration auf Windows 11

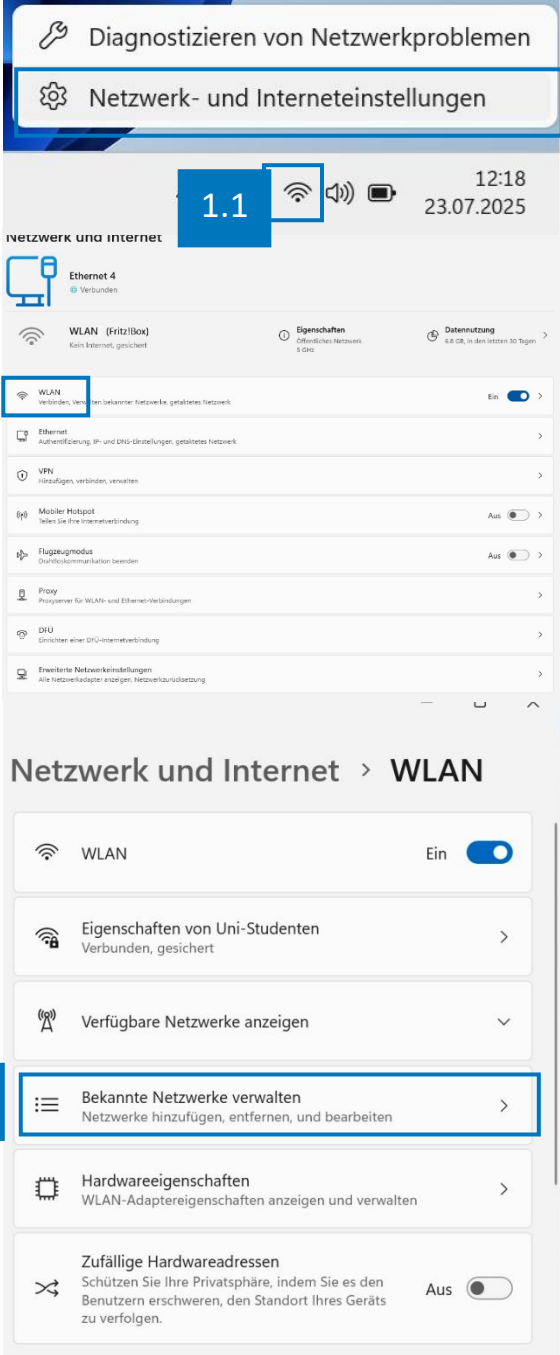

Step for step instructions

You want to use Wi-Fi permanently on your Windows device?
We'll show you how to do it easily.

Requirements for this guide:

1. You have a Windows laptop.
 2. You have a user account from EUF.
 3. You know your network access credentials.
 4. You have short-term internet access (e.g., mobile network).
 5. You can complete the first 4 steps at home using your home Wi-Fi. Step 5 is only possible in the eduroam Wi-Fi on campus.
-

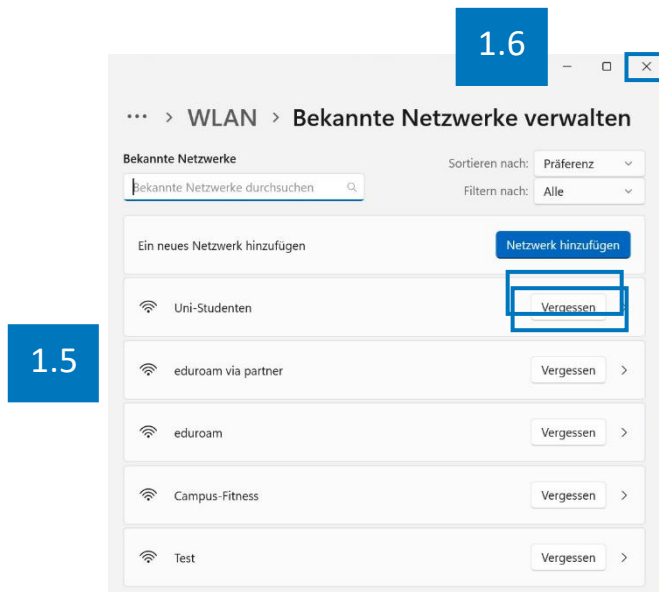

Step 1: Remove old eduroam-profiles

The screenshot shows the Windows 11 'Netzwerk- und Interneteinstellungen' (Network and Internet settings) window. The steps are as follows:

- 1.1** Press the **Wi-Fi-Symbol** on the taskbar. (Indicated by a blue box around the Wi-Fi icon in the system tray area).
- 1.2** Click **Network settings** (Netzwerk- und Interneteinstellungen). (Indicated by a blue box around the 'Netzwerk- und Interneteinstellungen' link in the top navigation bar).
- 1.3** Click on **Wi-Fi (WLAN)**. (Indicated by a blue box around the 'WLAN' section header).
- 1.4** Click on **Manage known networks** (Bekannte Netzwerke verwalten). (Indicated by a blue box around the 'Bekannte Netzwerke verwalten' link).
