

Step-for-step instructions

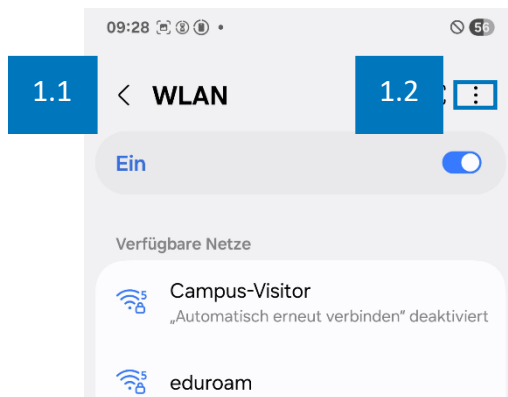

You want to permanently use eduroam on your Android device?
This guide shows you how to connect to the Wi-Fi.

Requirements for this guide:

1. You own an android device.
 2. You own an EUF user account.
 3. You know your network login details.
 4. You are able to connect to a temporary internet connection (e.g. cell service).
 5. The first two steps are doable at home. Step 3 only works with the eduroam network on campus.
-

Step 1: Set up eduroam Wi-Fi

To set up eduroam, you will need a temporary internet connection, for example through cellular or the backup Wi-Fi “Uni-Studenten”

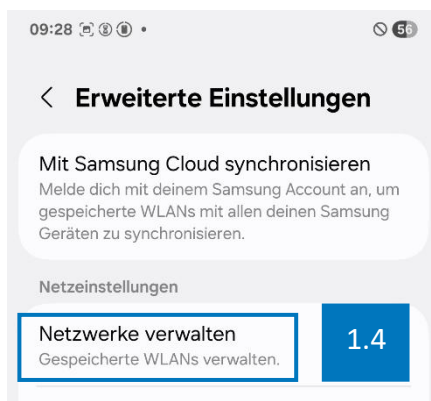

1.1 Navigate to the Wi-Fi settings.
Settings > Network & Internet > Wi-Fi

1.2 Open the Wi-Fi menu

1.3 Open **Advanced Settings** (or open **Saved Networks** depending on your phone model).

1.4 Open **Manage Networks**.

1.5 Press on any old eduroam networks that might be there.

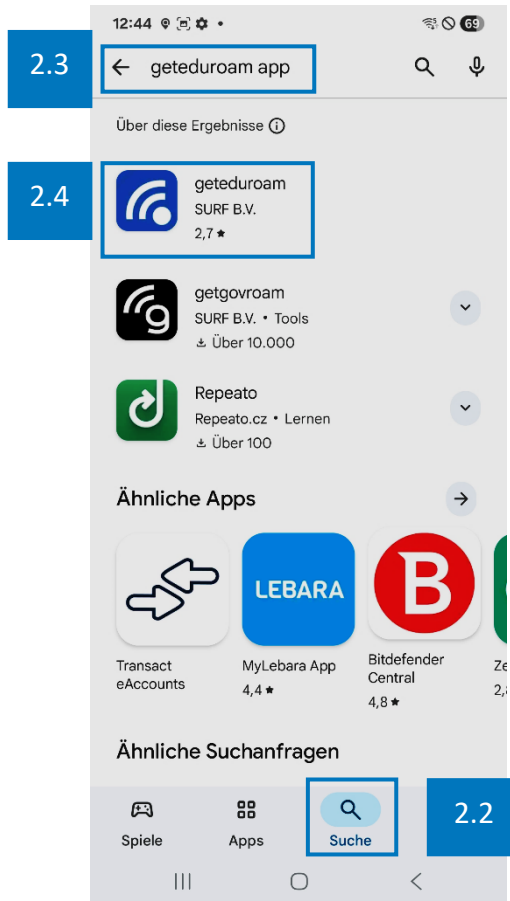

eduroam für Studierende Konfiguration auf Android 15

1.6 Press **Remove** to delete any old Wi-Fi networks

1.7 If you remove any networks, restart your device.

Step 2: Download installation program

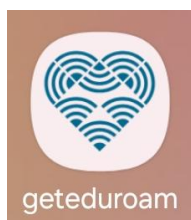

2.1 Open the Google Play Store

2.2 Navigate to the search

2.3 Search for "geteduroam"

2.4 Install the app "geteduroam" by Surf B.V.

2.5 geteduroam is installed

2.5

Step 3: Install eduroam

3.2

Suchen Sie nach Ihrer
Organisation

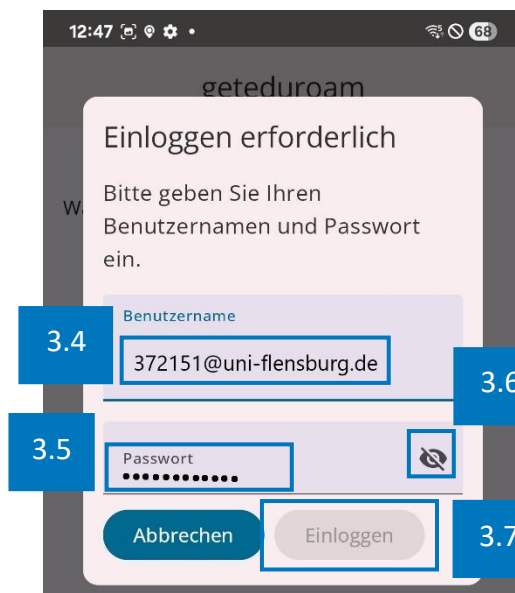

3.3

Europa-Universität Flensburg
DE

3.1 Open the App **geteduroam**.

3.2 Search for
Europa-Universität Flensburg.

3.3 Open **Europa-Universität Flensburg**.

3.4

Benutzername
